

## Paludicultural plants and utilisation options (selection)

	English name	Latin name	Most promising uses	Other uses
Uptake of cultivation very likely	Peat moss	<i>Sphagnum</i> spp.	<ul style="list-style-type: none"> <li>• Founder material for restoration and Sphagnum farming</li> <li>• Orchid cultivation</li> <li>• Horticultural growing media replacing peat</li> <li>• substrates for carnivorous plants, for vivaria with amphibians, reptiles and spiders,</li> <li>• substrate for hanging baskets, wreathes and vegetation walls</li> </ul>	<ul style="list-style-type: none"> <li>• Insulation and packaging material</li> <li>• Food preservation</li> <li>• Medical dressings, diapers, and sanitary towels</li> <li>• <i>Sphagnum</i> extracts as source of natural sunscreen</li> </ul>
	Sundew	<i>Drosera rotundifolia</i>	<ul style="list-style-type: none"> <li>• Medicinal uses</li> </ul>	<ul style="list-style-type: none"> <li>• Vegetarian rennet for cheese making</li> </ul>
	Cattail, Bulrush	<i>Typha angustifolia</i> , <i>Typha latifolia</i>	<ul style="list-style-type: none"> <li>• Insulation material</li> <li>• Filling material (seed hairs)</li> <li>• Construction material</li> <li>• Packaging and disposable tableware</li> <li>• Horticultural growing media replacing peat</li> <li>• Fodder</li> <li>• Pollen for feeding predatory mites (pest control in glasshouses)</li> </ul>	<ul style="list-style-type: none"> <li>• Combustion</li> <li>• Biogas</li> <li>• Extraction of proteins</li> </ul>
	Reed	<i>Phragmites australis</i>	<ul style="list-style-type: none"> <li>• Thatching material</li> <li>• Insulation material</li> <li>• Construction material</li> <li>• Packaging and disposable tableware</li> <li>• Fodder</li> <li>• Combustion</li> </ul>	<ul style="list-style-type: none"> <li>• Paper</li> <li>• Biogas</li> <li>• Liquid fuels</li> <li>• Extraction of proteins</li> <li>• Silicon from reed leaves for high-performance energy storage devices</li> </ul>
	Giant cane	<i>Arundo donax</i>	<ul style="list-style-type: none"> <li>• Combustion</li> </ul>	<ul style="list-style-type: none"> <li>• Biogas</li> </ul>
	Reed Manna Grass	<i>Glyceria maxima</i>	<ul style="list-style-type: none"> <li>• Fodder</li> </ul>	<ul style="list-style-type: none"> <li>• Biogas</li> <li>• Extraction of proteins</li> </ul>
	Reed canary grass	<i>Phalaris arundinacea</i>	<ul style="list-style-type: none"> <li>• Packaging and disposable tableware</li> <li>• Panels</li> <li>• Fodder</li> <li>• Bedding</li> <li>• Combustion</li> </ul>	<ul style="list-style-type: none"> <li>• Paper</li> <li>• Biogas</li> <li>• Liquid fuels</li> <li>• Extraction of proteins</li> </ul>
	Sedges	<i>Carex</i> spp.	<ul style="list-style-type: none"> <li>• Packaging and disposable tableware</li> <li>• Panels</li> </ul>	<ul style="list-style-type: none"> <li>• Paper</li> <li>• Biogas</li> </ul>

		<ul style="list-style-type: none"> <li>• Fodder</li> <li>• Bedding</li> <li>• Combustion</li> </ul>	<ul style="list-style-type: none"> <li>• Liquid fuels</li> <li>• Extraction of proteins</li> </ul>
Alder	<i>Alnus glutinosa</i>	<ul style="list-style-type: none"> <li>• Timber for carpentry, interior fittings, furniture</li> <li>• Veneer</li> <li>• Combustion</li> </ul>	
Willow	<i>Salix spp.</i>	<ul style="list-style-type: none"> <li>• Fodder</li> <li>• Weaving material (e.g. baskets)</li> </ul>	
Bog Myrtle	<i>Myrica gale</i>	<ul style="list-style-type: none"> <li>• insect repellent</li> <li>• flavour (e.g. beer)</li> <li>• medicinal uses, cosmetics</li> </ul>	
Cranberry	<i>Vaccinium oxycoccus</i>	<ul style="list-style-type: none"> <li>• Food (e.g. berries, juice)</li> </ul>	
Black Chokeberry	<i>Aronia melanocarpa</i>	<ul style="list-style-type: none"> <li>• Food (e.g. berries, juice)</li> </ul>	Medicinal uses
Wild rice	<i>Zizania aquatica</i> , <i>Z. palustris</i>	Cereal	
Japanese Millet	<i>Echinochloa esculenta</i>	<ul style="list-style-type: none"> <li>• Food</li> <li>• fodder</li> </ul>	
Celery	<i>Apium graveolens</i>	Vegetable	
Water Pepper	<i>Persicaria hydropiper</i>	Spicy leaf vegetable	
Holy Grass	<i>Hierochloe odorata</i>	Flavour (e. g. for drinks)	
Calamus	<i>Acorus calamus</i>	Flavour (e.g. for drinks), cosmetics	
Water mint	<i>Mentha aquatica</i>	<ul style="list-style-type: none"> <li>• Flavour, tea</li> <li>• Perfumery</li> </ul>	
• Cloudberry • Blueberry	<ul style="list-style-type: none"> <li>• <i>Rubus chamaemorus</i></li> <li>• <i>Vaccinium myrtillus</i></li> </ul>	<ul style="list-style-type: none"> <li>• Food (e.g. jam, juice)</li> </ul>	
• Bogbean, buckbean • Meadowsweet • Valerian • Butterbur • Garden Angelica • Alder Buckthorn • Gypsywort • Water Dropwort	<ul style="list-style-type: none"> <li>• <i>Menyanthes trifoliata</i></li> <li>• <i>Filipendula ulmaria</i></li> <li>• <i>Valeriana officinale</i></li> <li>• <i>Petasites hybridus</i></li> <li>• <i>Angelica archangelica</i></li> <li>• <i>Frangula alnus</i></li> <li>• <i>Lycopus europaeus</i></li> <li>• <i>Oenanthe aquatica</i></li> </ul>	<p>Medicinal plants (e.g. pharmaceuticals, cosmetics)</p>	
Duckweed fern	<i>Azolla filiculoides</i>	<ul style="list-style-type: none"> <li>• Fodder</li> <li>• Fertiliser (N-fixation)</li> </ul>	<ul style="list-style-type: none"> <li>• Food</li> <li>• Protein extraction</li> </ul>
Duckweed	<i>Lemna spp.</i>	<ul style="list-style-type: none"> <li>• Fodder</li> </ul>	<ul style="list-style-type: none"> <li>• Protein extraction</li> </ul>

### Further promising plants for paludiculture
