List of articles using IWC data 2019.doc

11:30-12:00 AEWA & EU processes

Presentations:

AEWA and EU processes_Szabolcs_Nagy.pdf

12:00-12:30 Election of IWC coordinators representative

Zuzana Musilová (Czechia) was elected as the new representative of IWC coordinators to the African-Eurasian Waterbird Monitoring Partnership Strategic Working Group, replacing Danka Uzunova (North Macedonia)

Action Points:

- The future coordination and organisation of the International Swan census to be discussed at the next Strategic Working Group of the African-Eurasian Waterbird Monitoring Partnership.
- WI will write-out the policy reporting timetable and show how different census efforts would fit into the process. WI will table and raise this at the Expert Group on Reporting under the Nature Directives and share with national coordinators and other relevant contacts (e.g. through AEWA).
- National coordinators are encouraged to make a statement to their government contacts encouraging alignment of these census efforts to the policy process.
